

**Black Kite** *Milvus migrans* (0, 1, 0). **RV**

(Breeds central, southern and eastern Europe, as well as the Maghreb region of Northwest Africa, to Tien Shan and south to northwest Pakistan. Winters in Sub-Saharan Africa).

**Published record:**

**1987**

One: Runabay Head, Cushendun, County Antrim, 28th April, photographed (Chris Murphy). *NIBA* 1992.

**Kite sp.** *Milvus* sp. (0,0,1). **RV**

**1980**

One: River Bann, Kilrea, County Londonderry, 2nd February (W. Baird, A. Knapper, A. Woods, W. Woods). *NIBRC* 1982.

In view of the extreme rarity of Black Kite in winter in Northern Europe this record almost certainly refers to a Red Kite which was a rarity in itself during that time period.
