

Red-flanked Bluetail *Tarsiger cyanurus* (0, 0, 1).

(Small population breeds north east Finland, but main range extends through cool temperate forests of northern Eurasia from eastern Russia and Siberia to Kamchatka, northern Japan and north east China. Winters southern China, Taiwan and southern Japan through South East Asia to northern peninsula of Thailand. Distinctive raven *rufilatus* of Himalayas and western China, sometimes treated as distinct species, descends to lower elevations during winter).
